Putting on
Please follow the instructions below and wear the device tight around your foot in order to feel haptic feedback effectively.
01

Loosen all straps by detaching from the velcro and place the device on top of your foot. Securely wrap straps around your foot and fasten with velcro.
02

You can extend or shorten the foot strap by folding the one end of the strap and attaching to the Velcro. Furthermore, if you need to extend the ankle straps, you can replace it with the provided extension straps.

03

After wearing the device, use it like below.

If necessary, you can attach a VIVE tracker* to the device and use them together.

Vive Tracker*

Connection module

Rubber washer

Wing screw

* Vive Trackers are not included

1. Fasten a Vive Tracker to connection module using the provide rubber washer and wing screw.
   Make sure the holes on the tracker and connection module are aligned before fastening them together.

2. Place the module from Step 1 on top of the main controller of the device and fasten them together with wrench bolts.
